Introduction:

As you will see in the following report, 1990 was a year of great change at the Montana Law Enforcement Academy. A number of far-reaching programs and plans have been reviewed, adopted and initiated. Academy operations will be positively affected for many years to come.

At the time that an Annual Report is usually provided, most of the Academy reorganizational plans for 1990 - 1991 were very much in-progress. The outcomes were by no means assured. Because of this, I decided to provide fiscal year end data to the Office of Budget and Program Planning but to delay writing the formal Annual Report until most of the changes at the Academy had actually taken shape.

Today, I am proud to say that the agency model for the Academy of the future is established and in place. We are progressing towards freshly adopted goals that give meaningful direction to our curriculum and to our staff. There is a renewed emphasis on responsibility and accountability. We know what must be done and we have the means and mechanisms to begin.

Many challenges remain. Not every effort will result in success. Yet I am confident that through this Annual Report, and through the next, the scope of Academy accomplishments will be seen as satisfying and clear.

Respectfully Submitted,

Division Administrator

Mission Statement and General Description:

It is the mission of the Montana Law Enforcement Academy to provide Montana law enforcement officers and other qualified individuals with a means of securing training in the field of law enforcement.

As a Division of the Department of Justice, the Academy receives input from a wide host of criminal justice agencies, advisory councils and police field providers relative to law enforcement needs within this state. Through a series of developmental and screening processes, this input is translated into meaningful instruction and delivered to an array of sworn and non-sworn Academy students via training programs conducted on the Bozeman campus and regionally. In conjunction with other institutions and boards of higher education, the Academy also creates and administers various measures of student performance evaluation and makes recommendations about student certification and field capabilities. The overall areas of Academy function are depicted on the following page.

Agency Organization:

This Division is housed in Bozeman within eight state-owned modular mobile home buildings and consists of ten FTE's organized into an Administrative Section, a Legal Section, a Basic Programs Bureau and a Professional Programs Bureau. In December, 1990, the Montana Law Enforcement Academy completed a reorganization that formalized agency structure and function. The changes that were made account for an expansion mandated by the 51st Legislature which allows qualified civilians to gain entry level police officer certification by attending the ten week Academy Basic Course on their own time and at their own expense. The first "Pre-Service" Academy students began their training in August, 1990 in accordance with new Administrative Rules. Thirty-two Pre-Service students will complete the MLEA Basic Course during FY 1991. An organizational chart for the Montana Law Enforcement Academy appears on the following page.
